

SIGNTRONIX LADY OF THE MONTH

Debra Hazboun

The illustrious, yet limelight elusive Debra Hazboun was born and raised in Torrance, California, with the exception of an exciting, four year family stint in Costa Rica during the mid-80's. She attended El Camino College where she received an Associate's Degree in Architecture. A real benefit for her job is that Debra is also fluent in Spanish. Debra has been married to her husband, Christopher Hazboun, for almost 17 years, although they've known each other for 31 years! Christopher and Debra just celebrated the birth of their first son, Harrison, who is now almost five months old.

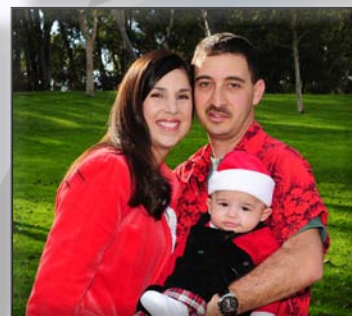

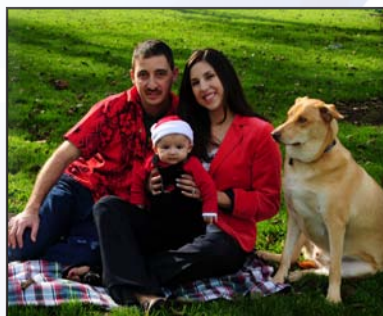

In addition to the new and exciting world of being parents, both Debra and Chris love riding bikes and pretty much anything that allows them to enjoy the California weather. Both are very outgoing and like to have a good time. Debra also likes to go shopping, spend time at the gym and read anything that catches her eye.

Debra's tenure at Signtronix dates back to July 1990. Since joining the company, Debra has developed experience across the entire organization; from the factory to the front office. Along the way, Debra has accumulated a vast and deep knowledge of our past and present products. Within Customer Service, she has handled everything from WIMS, Renderings, Verification, Warranty/Replacements, Technical, Cancellations, On-hands and Leasing. This knowledge and cross functional experience makes Debra a great leader in our organization.

As the new Director of Customer Service, Debra is off to a fast start and working beautifully with her entire team. She is striving to change the entire mindset and attitude with which Signtronix provides customer service. Plus, she has all the experience and the right ethics to do so.

One of the things Debra likes most about her job is talking to customers nationwide and exploring the unique businesses across the country. There isn't a day she doesn't perform her job to the best of her ability in a professional manner. An all-around class act, Debra is a tremendously important asset to the Signtronix team. In a world and industry that is constantly changing, a leader and friend like Debra is truly priceless. She can 'troubleshoot' her way through anything with a positive attitude and a kind word! Thank you, Debra for all you do to make Signtronix a success.

For Debra, her career at Signtronix is more than a nine-to-five job. It's an opportunity to be a part of something special. In all certainty, Signtronix is something special because of Debra Hazboun.
