

SIGNTRONIX LADY OF THE MONTH PEGGY GIGAX

A rare gem from Kansas, Peggy Gigax is a unique example of kindness, love and genuine goodness. She was born the third of four children on New Year's Day. No matter where Peggy is, Kansas, Tennessee or traveling the world, her hands are always busy working, helping, caring and loving.

Peggy met the man she would marry at a grocery store. "No, it wasn't the bump your cart into each other, 'Oh, is that my bread in your basket', pick-up kind of thing." Bill Gigax was the store manager and beautiful Peggy was a store clerk. After a brief distraction of wanting to date her friend, another store clerk, Bill knew Peggy was the perfect girl for him. They were married a year and a half later on December 23rd. This year will mark 30 years since they said, "I do."

Currently, Peggy is an attendance clerk for the elementary school and loves working with children and learning from them. In the past, she has taught pre-school and was very active with the youth programs at their church. Peggy was instrumental in starting a Wednesday youth program that continues today. When she is not working or reading, Peggy's busy hands are making jewelry, beading, scrap booking or knitting hats for charity. She recently led a team in the Susan G. Komen Race for the Cure. Her kindness and generosity never ends.

After 30 years and three amazing children, Peggy's family continues to grow as their two daughters got married in the last two years. Jason, 29, is heavily involved in the music industry. Megan, 25, is a familiar name around Signtronix. She worked for Bill while taking a break from nursing school. Megan is enjoying her new life with Dean as newlyweds. Maci, 22, is married to Jason Ashworth and works for GEHL Machinery in Nashville. Maci and Jason are both very active in their church and help to run the youth group there. Like mother, like daughter! Peggy said, "Bill and I are very proud of all our kids." In addition to the children, their dogs keep them on their toes. Jackson and Onyx are at the house with them, and they also have "grand puppies" Bella and Fletch that grab Peggy's attention. "Bill says we need a grandchild so I quit going nuts over the dogs!"

Bill started in the sign industry the week of Megan's first birthday. Rick Rossetti hired Bill to work for him at another company. Ten years later, the company folded and the door to Signtronix was opened. Peggy said, "We really found a 'family' business that cared about its people and were there to help us achieve our dreams. Even when Bill had health issues six years ago, Signtronix was still there for us. They helped him come back from that and I can't say that I have ever felt the compassion from a company more than I did when they showed they really cared about us and our family during that time."

Peggy, your upbeat and positive attitude is a great example and a key ingredient to the success of Bill and the entire company. We thank you for your never ending will to help others while continually making this world a better place. It's an honor to call you the Signtronix Lady of the Month.
