Dear Signtronix:

I and my employees want to thank you for helping us design and create our store sign. It has made such a difference in the amount of store traffic. We have seen new clients coming into our store who live close by but didn't know we were here.

The sign is durable and will look nice for years and years to come. I compared many local sign companies for a quality sign, but none of them had a sign quite like yours. They were so expensive and the graphics were so small! One company I talked to made me feel like I could only afford a wooden sign. The wooden sign would have cost me almost the same price as your sign. Your signs are very professional.

The sign you designed is perfect for our business! It lets people know what we are about. Pets. And your signs are so reasonably priced, we couldn't afford not to put up a sign! Thanks again for helping to make our business more profitable.

Sincerely,
Lorraine Milner
