Dear Mr. Bowden,

We are so pleased with our new sign. We have had so many compliments from our clients. We have been located here for 16 years. Recently, we have had a number of people stop in and say they noticed the sign and did not know we were here. One grandmother enrolled her grandson in our program. She said she has drove by for years on her way to work and had never noticed our building before.

We love the light at night. It really lights the parking lot and again more people are noticing our business. Thanks for your help!

Sincerely,

Barbara E. McArthur
